DoB: March 23, 1993

Education

- 2020–2021 Guest Researcher in Chair for Processor Design, CFAED, Technische Universität Dresden, Dresden, Saxony, Germany
Supervisor: Prof. Akash Kumar
- 2017–2022 Ph.D in Computer Architecture, Sharif University of Technology, Tehran, Iran
GPA: 17.02/20
Supervisor: Prof. Alireza Ejlali
- 2015–2017 M.Sc in Computer Architecture, Sharif University of Technology, Tehran, Iran
GPA: 17.73/20
Supervisor: Prof. Alireza Ejlali
- 2011–2015 B.Sc in Computer Engineering (Hardware), Shahid Beheshti University, Tehran, Iran
GPA: 16.53/20
Supervisor: Prof. Ali Jahanian

Industrial Experience

- 2022 – Now **Firmware Developer**, *Sharif University of Technology*, Tehran.
Senior researcher and UEFI module developer
- Responsibilities
 - Study of the state-of-the-art firmware and bios architectures
 - Develop EFI drivers and applications using the EDK2 project
- 2015 – 2020 **Embedded System Designer**, *Sharif Technology Service Complex*, Tehran.
Hardware specialist, FPGA designer, Linux driver developer, and C/HDL programmer
- Responsibilities
 - Design and implementation of HDL modules and C/C++ applications for FPGA and Arm processors on Zynq SoC
 - Setup and implementation of peripherals such as UART, SPI, I2C, and CAN
 - Setup Linux kernel and develop application modules to interact with FPGA on Zynq SoC

Programing languages

High level (C, C++, Python), HDL (VHDL, Verilog), Scripts (Shell Script, Makefile)

Languages

Persian (Native), English (Fluent), Deutsch (Basic)
